OLD LUMINESCENT HAT BLOCKS

In un luogo magico e affascinante di Bologna, all'interno di un cortile in via Zanolini 7, c'è Yesey, rarissima bottega storica di cappelli Artigianali. Al suo interno, una collezione unica di oltre 2000 pezzi di vecchi blocchi/forme di cappelli originali scolpiti in legno.

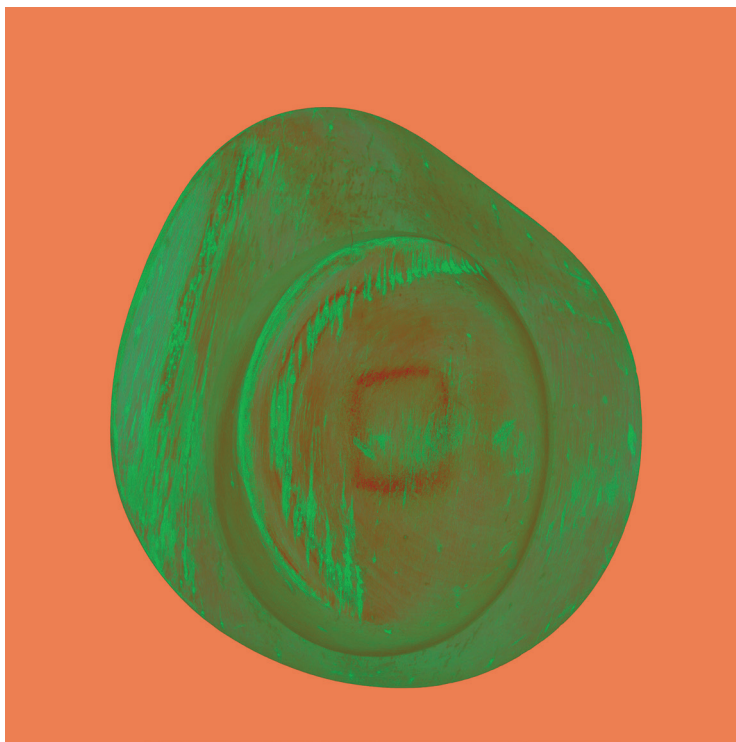

E' qui che Paolo Balboni e Pol Palli, insieme alla padrona di casa Dana Jauker, hanno deciso di creare un Progetto Artistico collettivo, inserito nel programma di Arte Fiera e Art City.

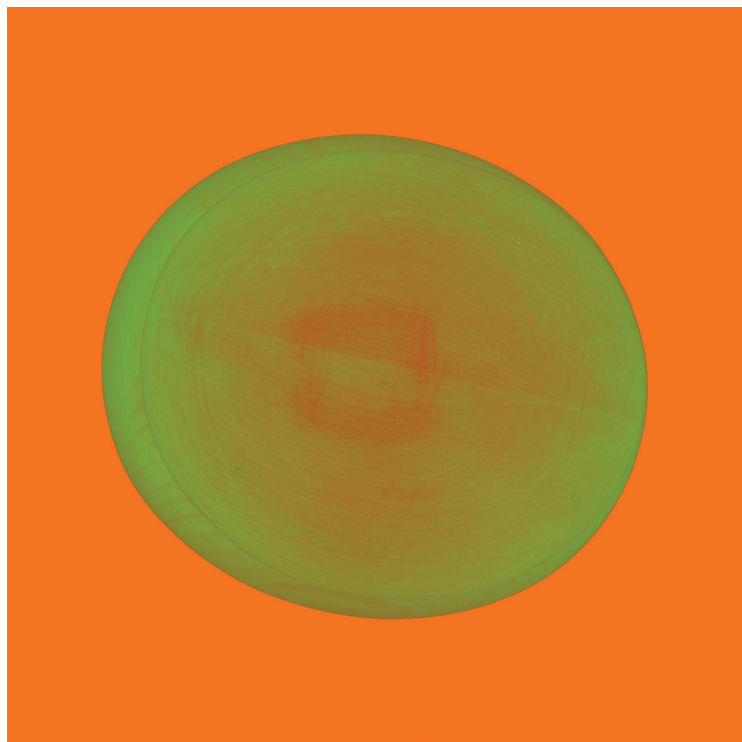

Le fotografie esposte tra i cappelli Yesey, catturano l'essenza delle

antiche forme in legno utilizzate per la creazione dei cappelli. L'approccio artistico, focalizzato su prospettive aeree, mostra una dimensione che comunemente non si coglie. Alterazione, trasformazione, metamorfosi, mutamenti. Fattezze inconsistenti, in mondi di colori saturi e cangianti, dove la forma stessa diviene una sorta di cellula generatrice, pianeta sconosciuto sospeso nel colore. Ogni foto offre uno sguardo unico su un autentico tesoro storico del mondo dei cappelli.
